

AVETMISS Compliant Software Register

Last updated 31 January 2024

Before consulting the information in the register below, please read the conditions of use:

1. The information in the register is solely supplied by the software vendors. NCVER cannot verify the information provided and does not take any responsibility for their accuracy or for decisions taken based on the information in the register.
2. The register does not constitute an endorsement, sponsorship or approval of products by NCVER nor provide any indication of, or guarantee or warranty in relation to, the quality of the software or the support provided by the software vendor.
3. The register does not contain an exhaustive list of publicly available student management systems that are AVETMISS compliant as registration is optional.
4. It is expected that RTOs take their own steps to ascertain that the information provided by the vendor is accurate and that the system fulfils expectations.

The register is updated with new or updated registrations within three working days of their approval.

Please note: Registration of AVETMISS Compliant software systems is optional. While NCVER has endeavored to encourage vendors to register their products, there may be compliant student management systems available in the market place that are not listed on the register.

AVETMISS Compliant Software Register
