

UPTAKE & UTILITY OF VET QUALIFICATIONS

Nationally recognised vocational education and training (VET) in Australia predominantly consists of enrolments in training package qualifications or skill sets. Recent research by NCVER has used total VET activity data to examine the pattern of enrolments in training package qualifications to explore the uptake and utility of these qualifications.

This infographic is based on findings from the report *Uptake and utility of VET qualifications* by Patrick Korbel and Josie Misko. For a more complete picture, the full report is available at <http://www.ncver.edu.au/publications/2894.html>.

A LARGE CONCENTRATION OF ENROLMENTS IN FEW TRAINING PACKAGES (TPs)

*Top 20 training packages are those with the most enrolments.

A CONCEPTUAL MODEL TO STREAMLINE QUALIFICATIONS

So if there was only one qualification for each occupation†...

† In use qualifications identified in the report with an assigned ANZSCO occupation.

AN EXISTING EXAMPLE

- 1** OCCUPATION: PERSONAL CARE ASSISTANT
- 1** QUALIFICATION: CERTIFICATE III IN INDIVIDUAL SUPPORT
- 3** SPECIALISATIONS:
 - DISABILITY SUPPORT
 - AGED CARE SUPPORT
 - HOME OR COMMUNITY SUPPORT
