Introduction	4
Question number map	5

Introduction

This document outlines the names for the variables included in the National Student Outcomes Survey from 2005 to 2018. Where the variable is a question in the questionnaire, the question number for each year, along with the generic name, is provided. The generic name is the name given to the variable in the de-identified unit record file (URF). For variables from the National VET Provider Collection, and derived variables, which may be derived using multiple variables, only the generic name is provided.
