Introduction

This document covers the data terms used in apprentice and trainee publications and related data tools and products. The primary purpose of this document is to assist users to understand the specific data terms.

Terms are listed in alphabetical order with the following information provided for each:

- **Definition:** a brief explanation of the term.
- **Classification categories:** defined categories which apply to each term are listed where applicable.
- **Source:** a description of the source of this information, including details of any calculations or derivations.

Unless stated otherwise, all data are sourced from the National Apprentice and Trainee Collection. The National Apprentice and Trainee Collection is an administrative collection governed by the *Australian Vocational Education and Training Management Information Statistical Standard Apprentice and Trainee Collection specifications: release 7.0* (AVETMISS Release 7.0), which is available at NCVET's Portal: <<https://www.ncver.edu.au>>. References to the applicable field definitions within AVETMISS Release 7.0, which further define the data collected, are provided in the 'source' section.

Terms and acronyms which have a broader vocational education and training (VET) application have not been included in this document. Readers are referred to the *Glossary of VET*, which is available at the VOCEDplus website: <<https://www.voced.edu.au/glossary-vet>>.
