Dear Parent/Caregiver of first_name,

Your child first_name has been selected to complete an important national survey about the program_level that they undertook in 2021. Our records show they were enrolled in the following: program_subject_nameinstitute_name. subject_name_readin

This survey is the only source of national information on students' experiences with vocational education and training.

The survey is to be completed by **your child** and should take about survey_length to complete.

The Social Research Centre (SRC) is conducting the survey on behalf of the Australian Government Department of Education, Skills and Employment and the National Centre for Vocational Education Research (NCVER).

By participating in this important national survey your child will help contribute to improving the education experience of future students by improving training, student services and facilities.

Your child will be contacted by the Social Research Centre to participate in the survey by contact_method in the first instance. This should arrive in the next few days. Please let them know that this will be happening. The link to completing the survey will be included in the communication that your child will receive.

Your child also has the opportunity to win a share of \$40,000 just by participating! The sooner they complete the survey, the more chances they have to win a Visa gift card in the weekly prize draws.

All your child's answers are confidential. Please refer to the privacy notice for more details about how their personal information will be managed and protected. The privacy notice, frequently asked questions, and prize draw terms and conditions are available at: www.ncver.edu.au/sos.

Thank you in advance for your assistance in encouraging your child to complete this important survey.

Simon Walker
Managing Director, NCVER
